COMMANDES DOCKER SEARCH:

- `docker search <mot clé>`

```
sio@sio-evanm:~$ sudo docker search ubuntu
NAME                DESCRIPTION          STARS     OFFICIAL   AUTOMATED
lfour/ubuntu16-compass
```

- NAME indique le nom de l'image. Les noms des images créées par l'équipe de Docker (comme `httpd`) ne sont pas précédés par le nom de l'utilisateur qui l'a créée (comme `eboraas/apache-php`).
 - DESCRIPTION : décrit l'image et donne des informations sur son contenu.
 - STARS indique le nombre de fois où l'image a été mise en favori par les utilisateurs, elle donne ainsi une idée sur sa popularité.
 - OFFICIAL indique si l'image a été produite par une source officielle reconnue par l'équipe de Docker.
 - AUTOMATED indique si l'image a été créée automatiquement depuis un dépôt GitHub ou Bitbucket.
- `docker search --help`

```
sio@sio-evanm:~$ docker search --help

Usage:  docker search [OPTIONS] TERM

Search Docker Hub for images

Options:
  -f, --filter filter      Filter output based on conditions provided
  --format string          Pretty-print search using a Go template
  --limit int              Max number of search results
  --no-trunc               Don't truncate output
```

 docker pull docker pull docker pull

 docker pull docker pull docker pull

 docker pull docker pull docker pull

 docker pull docker pull docker pull

 docker pull docker pull docker pull

 docker pull docker pull docker pull

 docker pull docker pull docker pull

Three Docker pull icons, each consisting of a blue square with a white Docker logo and the word "pull" in white text.

`<image>docker pull <image>docker pull <image>docker pull`

Three Docker pull icons, each consisting of a blue circle with a white 'P' and a white arrow pointing right.Three Docker pull icons, each consisting of a blue circle with a white 'P' and the text 'docker pull' in white.

 docker pull docker pull docker pull

 docker pull docker pull docker pull

<image>docker pull <image>docker pull <image>docker pull

Three terminal windows are shown side-by-side. Each window has a dark background and a light-colored prompt character (a circle). In each window, the command 'docker pull' is typed, followed by a space and a placeholder image name '<image>'. The text is white, and the windows are slightly offset to show multiple instances of the same command.

 docker pull docker pull docker pull

~~image\docker pull image\docker pull image\docker pull~~

COMMANDE DOCKER PULL :
